Release Notes NAFv4 2021.12

TaggedValue

1. **achievedEffect (deleted)** at the connector *DesiredEffect*
2. **boundaryCondition (deleted)** at the connector *DesiredEffect*
3. **concern (deleted)** at the element *Stakeholder*
4. **conformsTo (deleted)** at the element *UAFElement*
5. **dateCompleted (changed)** at the element *ArchitecturalDescription* - Type set to DatePicker
6. **desiredEffect (deleted)** at the connector *AchievedEffect*
7. **enterprisePhase (deleted)** at the element *Concern*
8. **environmentalConditions (deleted)** at the connector *Exhibits*
9. **environmentalContext (deleted)** at the element *Measurement*
10. **forecastPeriod (deleted)** at the connector *Forecast*
11. **goal (deleted)** at the element *ActualEnterprisePhase*
12. **implements (deleted)** at the element *ProtocolImplementation*
13. **measurementSet (deleted)** at the connector *OperationalExchange*
14. **milestone (deleted)** at the element *ResourcePerformer*
15. **operationalArchitectureOfEnterprisePhase (deleted)** at the element *ActualEnterprisePhase*
16. **ownedMilestone (deleted)** at the element *ActualProject*
17. **owningProject (deleted)** at the element *ActualProjectMilestone*
18. **physicalLocation (deleted)** at the element *LocationHold*
19. **providedInterface (deleted)** at the element *ServiceSpecification*
20. **ratifiedStandard (deleted)** at the element *Standard*
21. **requiredInterface (deleted)** at the element *ServiceSpecification*
22. **resource (deleted)** at the element *ProjectMilestone*
23. **stakeholder (deleted)** at the element *Concern*
24. **stakeholderConcern (deleted)** at the element *Stakeholder*
25. **versionReleasedAtMilestone (deleted)** at the element *VersionedElement*
26. **versionWithdrawnAtMilestone (deleted)** at the element *VersionedElement*
27. **viewpoint (deleted)** at the element *View*
28. **vision (deleted)** at the element *ActualEnterprisePhase*

Connector

29. **BoundaryCondition (new)** – enables the element *Environment* to be attached to the connector *ResourceConnector*. Replaces deleted taggedvalue *boundaryCondition*. Added at viewpoint P3.
30. **CompliesViewpoint (new)** – enables the element *View* to be attached to the element *Viewpoint*. Replaces deleted taggedvalue viewpoint. Added at viewpoint A2.
31. **ConformsTo (new)** - enables the element *Standard* to be attached to all stereotypes. Replaces deleted taggedvalue *conformsTo*. Added to all viewpoints.
32. **ConcernForViewpoint (changed)** – correction of the definition. Added at viewpoint A2.
    EnvironmentalCondition (new) – enables the element *Environment* to be attached to the connector *Exhibits*. Replaces deleted taggedvalue *environmentalConditions*. Added at the viewpoints C1-S1, C2, C5, Cr, L1.

33. **EnvironmentalContext (new)** – enables the element *ActualCondition* to be attached to the element *Measurement*. Replaces deleted taggedvalue *environmentalContext*. Added at the viewpoints C1, C7, L1, L2-L3, L2, L3, P1, P2, P3, P4, S1, S2, S8.
34. **ForecastPeriod (new**) – enables the element *ActualEnterprisePhase* to be attached to the connector *Forecast*. Replaces deleted taggedvalue *forecastPeriod.*am Connector Forecast. Added at viewpoint P1.
35. **GoalForActualEnterprisePhase (new)** – enables the element *ActualEnterprisePhase* to be attached to the element *EnterpriseGoal*. Replaces deleted taggedvalue goal. Added at viewpoint C2.
36. **Implements (changed**) – added as another client *InformationElement*, added as another client and supplier *OperationalActivityAction*. Added at viewpoint L4.
37. **MeasurementSetOfOperationalExchange (deleted)**
38. **OperationalArchitectureOfEnterprisePhase (new)** – enables the element *OperationalArchitecture* to be attached to the element *ActualEnterprisePhase*. Replaces deleted taggedvalue *operationalArchitectureOfEnterprisePhase*. Added at viewpoint C2.
39. **OperationalExchange (changed)** - added as another client and supplier *OperationalActivity*. Added at viewpoint L4.
40. **OwnsMeasurement (new)** – enables the element *Measurement* or *MeasurementType* to be attached to the element MeasurableElement. Replaces deleted taggedvalue MeasurementSetOfOperationalExchange. Added at the viewpoints C1, C7, L1, L2-L3, L3, P1, P2, P3, P4, S1, S2 and S8.
41. **OwnedMilestone (new)** – enables the element *ActualProject* to be attached to the element *ActualProjectMilestone*. Replaces deleted taggedvalue *ownedMilestone* and *owningProject.* Added at the viewpoints Cr, Lr, Pr and Sr.
42. **RealizingAchievedEffect (new)** – enables the connector *AchievedEffect* to be attached to the connector *DesiredEffect*. Replaces deleted taggedvalue *achievedEffect*. Added at viewpoint C5.
43. **RealizedDesiredEffect (new)** – enables the connector *DesiredEffect* to be attached to the connector *AchievedEffect*. Replaces deleted taggedvalue *desiredEffect*. Added at viewpoint C5.
44. **RequiredResource (new)** – enables the element *ResourcePerformer* to be attached to the element *ProjectMilestone*. Replaces deleted taggedvalue *resource*. Added at the viewpoints Cr, Lr, Pr and Sr.
45. **VisionForActualEnterprisePhase (new)** – enables the element *ActualEnterprisePhase* to be attached to the element *EnterpriseVision*. Replaces deleted taggedvalue *vision*. Added at viewpoint C2.
